Allowable Subject Matter

1. Claims 1-10 and 21-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art, the Duso of the record teaches a video distribution system 20 comprising controller servers 28-29, a plurality of stream servers 21, and a plurality of clients 54. The controller servers 28-29 function as a media server controller for the system 20 such as to control the server resources from the network, to assign one of the stream servers 21 to the client 54 requesting the video service...etc. Duso fails to anticipate or render the limitations obvious: "a multimedia application server...spools said video data into said temporary memory".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
